

At Holy Trinity C of E Primary Academy, we use Times Tables Rock Stars (TTRS) to support children in developing rapid recall and confidence with their times tables.

TTRS is a fun, engaging online programme that helps pupils practise multiplication and division facts through exciting games and challenges tailored to their individual level.

Regular use of TTRS helps improve fluency, speed and accuracy, which are key skills that support wider maths learning across the curriculum.

We encourage children to practise little and often at home to build confidence and celebrate progress together.
